Dear LPC Listserv:

Yesterday evening, the SCCOE received a recommendation (via the County Public Health Department) that mass gatherings where individuals are closer than arms-length from each other be cancelled. **For SCCOE, this means that we are evaluating events that are scheduled for the next two weeks, and events that have large numbers of attendees or small spaces that need to be cancelled.**

In discussing with the LPC Executive Committee yesterday evening and this morning, we have made the decision to cancel the LPC March Evening meeting next Wednesday, March 11. We sincerely apologize for any inconvenience this may have caused. While inconvenient, we are working to ensure the health and safety of those at SCCOE, the early learning community, and Santa Clara County as a whole.

Moreover, if you happened to have forwarded this meeting flier to any of your respective mailing lists, please forward along this cancellation notice as well.

Thank you for your understanding, we will inform you of the next LPC meeting in the near future.

Regards,
